- Locked park gates can only be accessed by a Park Film Office Monitor. Security of open gates must be provided by the permitted company. Any equipment that is permitted to stay overnight must be guarded by the permitted company's security group.
- Alterations to natural or manmade surroundings or content of the park are not permissible unless documented in these specific guidelines. The permit holder is financially responsible for all remediation should there be any damage or unauthorized alteration to Department property. The remediation and cost of will be determined by the Park Film Office.
- A Park Film Office Monitor(s) may be assigned to the permitted location. Their job is to ensure guidelines are followed, liaison between park patrons, other City employees and a communication link between Permitee and the Park Film Office for any additional needs or authorizations. When the Park Film Office is closed the Park Film Monitor has the authority and responsibility to modify these guidelines within the parameters given to them by their supervisor. The Park Film Monitor has access 24/7 to contact their supervisors if needed. The Permitee will be required to adhere to the instructions, restrictions and requests given by the Park Film Monitor.
- No Smoking unless in designated area.
- No smoking on trails.
- Smoking is prohibited on all Department properties. An exception has been made for permitted film production companies to smoke in areas that are designated by the Fire Safety Officer or Park Film Monitor. If a Fire Safety Officer or Park Film Monitor is not assigned to the Permitee there will be no smoking with the exception of an actor smoking while performing or as part of the scene.
- A designated smoking area may not be near any patron activity or facility. Large buckets of sand or water must be placed in this area for disposal of tobacco or tobacco related products. The designated smoking area may be revoked or not allowed depending on weather and location conditions. Failure to comply with the smoking restrictions may result in a fine.

Safety Assertions

*All basic Part 107 and FAA regulations are always followed and inherent within the safety guidelines.

- Landing Zone is strategically placed behind a heavily brushed area far at the furthest point of the dirt platform
- When multiple drones are in the air they are locked into their designated altitude
- Drones never fly over people, and are kept over the desert brush
- The Camera Drone always remains on the perimeter of the girls
- All operators are on a closed communication system with an Expert 107 Pilot and Aerial Director.
- Test flights are performed the morning of the event to ensure all conditions are safe
- The circular nature of the flight path has been designed to create the most basic flight characteristics so all drones perform consistently.

Additional Details:

- The drones will only be flying during the desired times as directed / specified by the director and Drone camera director, and will always stay within the set flight path.
- We will be utilizing a DJI Inspire 2 to capture aerial video
- CONTENT STRATEGY: During the event, the custom drones will be circling while the Inspire 2 gets video content of them flying.
- FAA Airspace Authorization to be submitted to Burbank Airport (KBUR) through LAANC
